*Department of Biotechnology  
St. Bede's College, Shimla*

There isn't a lot to say  
Staying home is the only way

We need to be aware  
The young, the old everybody needs care

Step out with a mask  
Only when there is an important task

This is our only chance when lives can be saved  
while staying inside  
Do it for people who are working day and night  
keeping their families aside.

This time shall pass like any other  
For now, be patient and co-operate to stop the virus  
from spreading any further.
